OverviewProperty detailsOccupiers and managementSustainabilityHistory

Broadgate is the premier City of London office estate, consisting of 16 office buildings, including the recently completed 201 Bishopsgate and Broadgate Tower. The Estate comprises 4.4 million sq ft of Grade A office space – a distinctive environment for some of the world's largest corporations and leading professional practices.

The office buildings, designed by leading architects, are all structurally independent, ranging in size from 78,000 sq ft to 419,000 sq ft and accommodate office floor plates of up to 56,000 sq ft. Each building provides efficient and flexible working space allowing occupiers to change floor layouts, create additional working space or install the latest technology to adapt to changing working needs.

The Estate is served by Liverpool Street station, one of the City's major transport interchanges, which provides mainline train services and four underground lines, as well as a bus station and taxi services.

Within the Estate, buildings are set around four landscaped squares, each providing a unique working environment for the offices, enhanced by over 50 restaurants, pubs, wine bars, shops and health clubs.
