

1 Interface: Managers and Resourcing team members

1.1 URL

The URL of the Managers/Recruiters interface is yet to be decided and will depend partly on the name of the site that is eventually chosen.

1.2 Overview and structure

This interface allows Hiring managers and Resourcing team members to login and see details on their Candidates including which training tasks they have completed.

The structure of the interface will be as follows:

Level 1	Level 2	Level 3
Login page		
Home		
	Candidates	
		Search
		Candidate details
	Manual upload	
	Help	
	Change my password	

1.3 Assigning Candidates

Users will only be able to see the Candidates that are relevant to them. Details on which Resourcing teams are high volume and which ones are low volume are shown in this document in Section **Error! Reference source not found. Error! Reference source not found.**

The Candidates will be assigned to a Hiring manager and/or Resourcing team as follows:

User	Candidates
Hiring manager	Only sees Candidates assigned to the individual Hiring manager
Resourcing team member – Low volume	Only sees Candidates who are assigned to their own Resourcing team
Resourcing team member – High volume	- Can see Candidates assigned to any high volume resourcing team (Though they'll see their own team Candidates by default and select options to see other teams' Candidates.)
Administrators	- Can see all Candidates (Will only see Candidates of one team by default and can select options to see other teams' Candidates')

1.4 Login

Item	Description
Elements	Login screen contains: ▪ Username entry field ▪ Password entry field ▪ 'Forgot my password' link (plus text instruction: "Enter your user name and select this link")
Error messages	▪ Incorrect username or password: "Sorry, the details you entered are not correct."
'Forgot my password'	[REMOVED FROM EXTRACT]

1.5 Home

Candidate name 4	[start date]	[Job title/desc]																				
View all candidates																						

Item	Description
Elements	▪ Welcome message ▪ “Change my password” link ▪ “Candidate attention” list
Welcome message	Static text content welcoming the Manager/Recruiter to the site
“Change my password” link	▪ This link appears for all Manager/Recruiters.
“Candidate attention” list	This is a list of Candidates who: ▪ are assigned to this Manager/Recruiter and; ▪ are two weeks or less from their Start Date, or have passed their Start Date though not yet made inactive and; ▪ who have not completed all their required training tasks The list shows for each candidate: ▪ Candidate name ▪ Candidate job title (i.e. web description field) ▪ Candidate start date ▪ Link to the Candidate Details page (the name text may also be a link for this) The list is sorted by Start Date and then by Name

Search

Item	Description
Overview	This section allows the Manager/Recruiter to search for any Candidates that are assigned to them and see their details. The Manager will only be able to search amongst Candidates that have been assigned to them, and will not see the Resourcing Team selector controls. Resourcing Team members will be able to choose to see the Candidates belonging to other Resourcing Teams. However, because the contents of the search option drop-downs will vary across Resourcing Teams, these users will only be able to search within one Resourcing Team at a time. For the purposes of searching, Thatcham and Leeds will be counted as one team.
Elements	▪ Resourcing team selector (Resourcing team members only) ▪ Other search options

Resourcing team selector	▪ Allows the Recruiter to select a Resourcing team ▪ Hiring managers will not see this control, it will only appear for Resourcing team members. (Hiring managers only see those Candidates which are assigned to them individually.) ▪ The control will default to the Resourcing team members own Resourcing team. ▪ When this is changed, the other search options will be refreshed so that the Function option only includes contents which are available to the user in the selected Resourcing team. (See below for full details on this.) ▪ The Resourcing teams which appear in this drop-down are listed in this document Section Error! Reference source not found. Error! Reference source not found. ▪ NOTE: For the purposes of this site, the Leeds and Thatcham Resourcing teams should be treated as one team. That is, the Recruiter will be able to select “Leeds and Thatcham” as one item in the Resourcing team selector.
--------------------------	---

Search options	The interface will allow the user to search on the following fields: ▪ Candidate ID (text field) ▪ First name (text) ▪ Last name (text) ▪ Email (text) ▪ Job reference (text) ▪ Application status (drop-down) ▪ Web description (text) ▪ Start date – From ▪ Start date - To ▪ Region (drop-down) ▪ Location (drop-down, Note: the options available here may be dependent on what is selected in the Region field) ▪ Brand (drop-down) ▪ Business unit (drop-down) ▪ Function (drop-down) ▪ System upload (checkboxes: Manual upload / i-GRasp / Both)
----------------	---

Function options in drop-down	As there are many Function possibilities, the options given in the Function drop-down will only be those that are actually used in the Candidates assigned to the selected Resourcing team. That is, if the Candidates assigned to the selected Resourcing team have only 10 different Functions amongst them, then only these 10 will appear in the drop-down. Whenever the Resourcing team field is re-selected, all the search options will be reset and the options in the Function option may change.
-------------------------------	---

Help

Search candidates – [Resourcing team]

[Refine search](#)[New search](#)

You searched for: Start date between X and Y, job title includes "gas", training tasks are incomplete; Export these results

Sort by

Start date

Showing 1 to 50 of 253 [Prev](#) [Next](#)

Name	Start date	Job title	Brand & location	Training tasks
Candidate name 1	[start date]	[Job title/desc]	[Brand & location]	Incomplete
Candidate name 2	[start date]	[Job title/desc]	[Brand & location]	Incomplete
Candidate name 3	[start date]	[Job title/desc]	[Brand & location]	Incomplete
Candidate name 4	[start date]	[Job title/desc]	[Brand & location]	Incomplete
Candidate name 5	[start date]	[Job title/desc]	[Brand & location]	Incomplete
Candidate name 6	[start date]	[Job title/desc]	[Brand & location]	Incomplete
Candidate name 7	[start date]	[Job title/desc]	[Brand & location]	Incomplete

Showing 1 to 50 of 253 [Prev](#) [Next](#)

Item	Description
Elements	▪ Page title ▪ Search criteria ▪ “Export these results” link ▪ “Sort by” drop-down ▪ “New search” link ▪ “Refine search” link ▪ Candidate search results list,
Page title	▪ Shows “Search results” plus the selected Resourcing team
Search criteria	▪ Text showing what search criteria were entered. ▪ Format: “You searched for: [CRITERION 1], [CRITERION 2], [etc].” The criteria will be displayed in the following formats: ▪ Text fields: “First name included [ENTERED TEXT]” ▪ Drop-down fields: “Brand is [BRAND NAME]”

-
- Start date fields: “Start date from [FROM DATE] to [TO DATE]”

Exmample: If the user searched for Candidates from British Gas who have ‘electrician’ in their job title and who have a start date between 1st and 16th March, then this text will appear as:

“You searched for: Brand is *British Gas*, Job title includes *electrician*, start date from *1-Mar-2011* to *16-Mar-2011*.”

(Note: Avoid date formats which show only numbers as US and UK conventions are different.)

“Export these results” link

- This link will export the list of Candidates which have been found in the current search as an Excel spreadsheet. It will include all the fields in the Candidates table, in separate columns, except for password.

“Sort by” drop-down

- Allows the user to re-sort the search results by any column

“New search” and “Refine search”

- “New search” returns the user to the Search page with all fields reset
- “Refine search” returns the user to the Search page with the search criteria still filled in.

Candidates results list

- Candidate search results list, showing for each one:
 - Candidate name (also a link to Candidate Details page)
 - Start date
 - Job title (ie. web description)
 - Brand and Location
 - Status of training modules (Complete/Incomplete – please note, this refers to whether or not the Candidate has completed all the modules, not the status of any individual module.)
-

Training tasks

Module	Status
Module name 1	Completed
Module name 2	Incomplete
Module name 3	Incomplete

Item	Description
Elements	▪ Activity status control (Active vs Inactive) ▪ General Candidate details ▪ Training tasks list ▪ Candidate contact details ▪ “Edit” link ▪ “Return to search results” link
Activity status control	Allows the Manager/Recruiter to set the Candidate’s Activity Status between Active and Inactive.
Deactivation email	If the manager sets the Activity status to “Inactive” the Deactivation notification email will be sent to the Candidate. (See Section Error! Reference source not found.)

General Candidate details	Includes: ▪ Candidate ID ▪ Name ▪ Web description ▪ Job title ▪ Job reference ▪ Application status ▪ Start date ▪ Region ▪ Location ▪ Brand ▪ Business unit ▪ Function ▪ System upload (Manual upload / i-GRasp)
Training tasks list	Shows the list of training modules assigned to the Candidate and the status of each one.
Candidate contact details	Includes: ▪ Preferred phone number ▪ Phone number 2 ▪ Phone number 3 ▪ Email address ▪ Postal address details
"Edit" link	This only appears if the Candidate has been manually uploaded. If they are an i-GRasp supplied Candidate they cannot be edited. Clicking this link opens the "Candidate details" page in editing form.

1.6.4 Candidate details (Edit)

Item	Description
Editable version	This page is the same as the "Candidate details- View" page, except that most of the fields can be edited, as per the following list. All fields will be editable except Candidate ID and System Upload. General Candidate details: ▪ Candidate ID (not editable) ▪ Name ▪ Web description ▪ Job title ▪ Job reference ▪ Application status ▪ Start date ▪ Region ▪ Location

-
- Brand
 - Business unit
 - Function
 - System upload (Manual upload / i-GRasp, not editable)

Contact details:

- Preferred phone number
 - Phone number 2
 - Phone number 3
 - Email address
 - Postal address details
-

1.7 Manual upload

Item	Description
Overview	▪ Allows the user to upload Candidates into the system manually via a spreadsheet ▪ This tab and page are only seen by Resourcing team members, not by Hiring managers.
Elements	Includes: ▪ Function to browse and select a file to be uploaded. ▪ Explanatory text including list of columns required in upload file.
Columns in upload file	The upload file will include all the fields in the i-GRasp feed, except for Candidate ID which will be generated automatically on upload. See the i-GRasp Technical Specification for a full list. The only mandatory fields in the upload are: ▪ First name ▪ Last name ▪ Web description ▪ Brand ▪ Business unit ▪ Either Hiring manager details (Name, Email, Password) or Resourcing team ▪ Application status ▪ Start date
Validation of upload	The following validations will be carried out: ▪ Mandatory fields have been filled ▪ Brand is a valid brand ▪ Business unit is a valid business unit ▪ Application status is a valid status ▪ Start date is in valid format

-
- Start date is not in the past
 - Either Hiring Manager or Resourcing team details have been included (or both)
 - If Hiring Manager details are entered, there must be the name, the email, and the password
 - If Resourcing team details have been entered, that it is a valid Resourcing team name

If there are any validation errors then the file will not be uploaded. A message will be provided to the user however, informing them what the first error in the file is, and the line on which it occurs.

Creating Hiring Managers - Conflicts between i-GRasp data and manual upload

- During the upload, each Hiring Manager email will be compared with Hiring Manager emails already in the system.
 - If it is new, a new Hiring Manager will be created
 - If it exists, and was created manually or by manual upload then the new details (name and password) will over-write the existing details
 - If it exists, and was created from i-GRasp upload, then any new details will *not* over-write the existing ones.
- When a new Hiring manager is created in the system, the Invitation email will be sent to them. See Section **Error! Reference source not found.** for details.

1.8 “Change my password” page

Item	Description
Functionality	This page appears for all Manager/Recruiters. It allows them to enter a new password and save it.
