PROFILE

Business Analysis leader with more than 25 years' experience across digital health, higher education, consulting, media and technology. I build and lead high-performing business analysis practices while staying hands-on across complex digital transformation, system integration, UX and service design.

I combine strategic practice leadership with delivery of large, multi-product integrated solutions, turning ambiguous problems into practical, user-focused outcomes for complex organisations. I recently completed an AI Product Manager Nanodegree (RMIT, 2025) to extend this into AI-enabled product delivery. I hold a PhD in Philosophy of Science and Mind, bringing a strong foundation in analytical reasoning and complex problem-solving.

CORE SKILLS & TOOLS

Leadership: BA practice leadership, team building & mentoring, resource & capability planning, recruitment, performance management

Delivery: Agile/Scrum, Design Thinking, requirements elicitation & management, workshop facilitation, stakeholder engagement, process & solution design, COTS procurement, service design, UX

Domains & systems: Digital health, Dynamics CRM, Twilio telephony, My Health Record, Clinical Decision Support, SharePoint, AI product management

PROFESSIONAL EXPERIENCE

Business Analysis Leader Healthdirect Australia *Sep 2022 – Present*

- Led a practice of 12-20 Business Analysts and Scrum Masters across a portfolio of digital and technology initiatives, providing people leadership, mentoring and senior escalation support.
- Introduced a demand-forecasting and allocation model across the practice, improving resource utilisation by removing resourcing gaps; team allocations was close to 100% with negligible bench-time.
- Established the Healthdirect BA Playbook from the ground up including standards, templates, guides and ways of working, reducing new-BA onboarding time by several weeks and standardising delivery quality.
- Built and retained a team through recruitment, structured onboarding and capability development, running performance reviews, probation assessments and career-development planning.
- Remain hands-on (~25% of role) on strategic initiatives, resolving complex delivery, stakeholder and integration challenges as senior analyst.

Lead Business Analyst Healthdirect Australia *Mar 2021 – Sep 2022*

- Led business analysis for the national Healthdirect Helpline service (now 1800MEDICARE), integrating 6 systems including Dynamics CRM, Twilio telephony, Clinical Decision Support, Secure Messaging, as well as bespoke Service Finder and Knowledge Article applications.
- Ran COTS procurement for the My Aged Care Knowledge Base as combined BA and Project Manager — market scan, vendor evaluation, demonstrations and selection. The new solution improved navigation and searchability, made knowledge available outside the call centre, improved updating of content.
- Delivered BA and Project Manager services for My Health Record integration, coordinating stakeholders, defining requirements and designing both system integration and front-end functionality.
- Drove requirements elicitation, workshop facilitation, process analysis and solution design across multiple transformation and integration initiatives within Agile delivery teams.

Team Lead Business Analyst University of Technology Sydney *Jan 2017 – Mar 2021*

- Led and mentored a team of 7-9 senior and mid-level BAs in the Technology Projects Office, owning recruitment, resource forecasting and allocation, performance reviews and professional-development plans.
- Led analysis on Project Ares, defining UTS's enterprise Agile development and governance framework and a Ways of Working knowledge base, adopted by project teams as the standard delivery approach.
- Delivered hands-on requirements analysis and functional design on the *Canvas Administration Tool*, *Research Costing & Pricing System*, and *Research Excellence Support Hub*.
- Oversaw development of the Research Systems 4-Year Roadmap.
- Redeveloped the benefits-realisation reporting format used across multiple projects, improving clarity of reporting to senior management.
- Oversaw service analysis and design for Higher Degree Research and Academic Research systems.

Lead Business Analyst Healthdirect Australia *Sep 2014 – Jan 2017*

- Managed and mentored a team of 5 BAs, hiring BAs and Scrum Masters and running performance reviews, resource forecasting and allocation.
- Established Healthdirect's BA product-development process, introducing an Agile (Scrum) and Design Thinking approach to analysis.
- Delivered BA and UX design on the Healthdirect website redesign and Service Finder, and oversaw BA work on the *Pregnancy, Birth & Baby* and *mindhealthconnect* websites.

Business Analyst Healthdirect Australia *Apr 2013 – Aug 2014*

- Provided analysis and functional design for Healthdirect's Symptom Checker including procurement of COTS product the provided content management and tool administration.
- Agile BA, UX design and project-management duties across the Healthdirect App, video-call reporting, integrated knowledge repository and website harvester.

EARLIER CAREER

Business Consultant Jacobs Australia *Jan 2012 – Mar 2013*

- Gathered requirements and designed SharePoint-based information-management solutions (intranets, document management, workflow, governance, migration) for clients including APA Group, the Dept of Sustainability and PwC.

Senior Business Analyst (Contract) News Digital Media *Mar 2011 – Dec 2011*

- Delivered requirements and interaction design for social-media integration and reporting across major News Ltd mastheads (The Australian, Daily Telegraph, Courier Mail).

Senior Producer / Interim Head of Project Services The Group (now Addison Group), London *May 2010 – Jan 2011*

- Managed project planning, costing, tracking and client liaison for FTSE 100 clients; acted as interim team head for two months during recruitment.

Senior User Experience Architect The Group (now Addison Group), London *Feb 2007 – Apr 2010*

- Led requirements, functional specifications, wireframes and usability testing, and project-managed development of the agency's in-house CMS (Conductor); hired and mentored a junior UX Architect.

Senior Usability Consultant Usability by Design, London *Jan 2005 – Feb 2007*

- Provided usability testing and consultancy for The National Archives, the Home Office, John Lewis Partnership, Waitrose and the Environment Agency, among others.

Business Analytics Manager / Senior BA / Interaction Designer Unique World, Sydney

Jun 2001 – Jul 2004

- Progressed to managing a team of four BAs — resourcing, hiring, mentoring, performance reviews and board-level reporting — alongside senior BA and interaction-design delivery on web systems and applications.

- Managed website content and editorial through the company's transition from online retailer to e-commerce services provider for traditional retailers.
